

	American International University- Bangladesh (AIUB) Faculty of Engineering		
Course Name:	Engineering Ethics and Environmental Protection	Course Code:	EEE 3107
Semester:	Fall 2024-25	Section:	G
Item:	CO4: Understand and evaluate the sustainability and impact of professional engineering work in the solution of complex engineering problems in societal and environmental contexts by designing ethical guidelines.		
Student Name:	FARJANA YESMIN OPI	Student ID:	22-47018-1
Student's Department:	CSE	Submission Date:	31-12-2024

Rubric:

Category	Proficient [4]	Good [3]	Average [2]	Poor [1]	Secured Marks
Format of the code of conduct	Very well-structured of code of conduct with proper reference to the IEEE, ACM, NSPE, IEB etc.	Well-structured of code of conduct with proper reference to the IEEE, ACM, NSPE, IEB etc.	Acceptable format of code of conduct with some reference to the IEEE, ACM, NSPE, IEB etc.	Code of conduct without any reference to the IEEE, ACM, NSPE, IEB etc.	
Comprehension of the role of engineering in society (K7)	Comprehension of the role of engineering in society is stated clearly and described comprehensively, delivering relevant information necessary for full understanding.	Comprehension of the role of engineering in society is stated, described, and clarified so that understanding is not seriously impeded by omissions.	Comprehension of the role of engineering in society is stated, but description leaves some terms undefined, ambiguities unexplored, boundaries undetermined,	Comprehension of the role of engineering in society is stated without clarification or description.	
Issues in engineering practice (K7)	Issues in engineering practice is stated clearly and described comprehensively, delivering relevant information necessary for full understanding.	Issues in engineering practice is stated, described, and clarified so that understanding is not seriously impeded by omissions.	Issues in engineering practice is stated, but description leaves some terms undefined, ambiguities unexplored, boundaries undetermined,	Issues in engineering practice is stated without clarification or description.	
Engineering responsibility to public safety and Environment (K7)	Engineering responsibility to public safety and environment is stated clearly and described comprehensively, delivering relevant information necessary for full understanding.	Engineering responsibility to public safety and environment is stated, described, and clarified so that understanding is not seriously impeded by omissions.	Engineering responsibility to public safety and environment is stated, but description leaves some terms undefined, ambiguities unexplored, boundaries undetermined,	Engineering responsibility to public safety and environment is stated without clarification or description.	
Importance of 'Safety' to social, cultural, economic and sustainable development (K7)	Importance of 'Safety' to social, cultural, economic and sustainable development is stated clearly and described comprehensively, delivering relevant information necessary for full understanding.	Importance of 'Safety' to social, cultural, economic and sustainable development is stated, described, and clarified so that understanding is not seriously impeded by omissions.	Importance of 'Safety' to social, cultural, economic and sustainable development is stated, but description leaves some terms undefined, ambiguities unexplored, boundaries undetermined.	Importance of 'Safety' to social, cultural, economic and sustainable development is stated without clarification or description.	
		For complete Similarity with other (Negative Marking will be imposed)
