

	American International University- Bangladesh (AIUB) Faculty of Engineering		
Course Name:	Engineering Ethics and Environmental Protection	Course Code:	EEE 2215
Semester:	Fall 2024-25	Section:	G
Item:	CO3: Apply professional codes of ethics and standards for analyzing public safety and the impacts of engineering activity on economic, social, cultural and environmental sustainability. (P.h.1.C3)		
Student Name:	FARJANA YESMIN OPI	Student ID:	22-47018-1
Student's Department:	CSE	Serial: 09	Submission Date: 14.01.2025

Rubric:

Category	Proficient [6]	Good [5]	Average [3-4]	Poor [2-1]	Secured Marks
Format of the code of conduct	An excellent explanation of issues with respect to many existing codes of ethics, IEEE, ACM, NSPE, IEB etc.	Followed code of conducts with linking to some of the IEEE, ACM, NSPE, IEB etc.	Followed code of conduct with some reference to the IEEE, ACM, NSPE, IEB etc.	Not followed any Code of conduct for example, IEEE, ACM, NSPE, IEB etc.	
Comprehension of the role of engineering in society (K7)	Comprehension of the role of engineering in society is stated clearly and described comprehensively, delivering relevant information necessary for full understanding.	Comprehension of the role of engineering in society is stated, described, and clarified so that understanding is not seriously impeded by omissions.	Comprehension of the role of engineering in society is stated, but description leaves some terms undefined, ambiguities unexplored, boundaries undetermined,	Comprehension of the role of engineering in society is stated without clarification or description.	
Issues in engineering practice (K7)	Issues in engineering practice is stated clearly and described comprehensively, delivering relevant information necessary for full understanding.	Issues in engineering practice is stated, described, and clarified so that understanding is not seriously impeded by omissions.	Issues in engineering practice is stated, but description leaves some terms undefined, ambiguities unexplored, boundaries undetermined,	Issues in engineering practice is stated without clarification or description.	
Engineering responsibility to public safety and Environment (K7)	Engineering responsibility to public safety and environment is stated clearly and described comprehensively, delivering relevant information necessary for full understanding.	Engineering responsibility to public safety and environment is stated, described, and clarified so that understanding is not seriously impeded by omissions.	Engineering responsibility to public safety and environment is stated, but description leaves some terms undefined, ambiguities unexplored, boundaries undetermined,	Engineering responsibility to public safety and environment is stated without clarification or description.	
Importance of 'Sustainability' to social, cultural, economic development (K7)	Importance of 'Safety' to social, cultural, economic and sustainable development is stated clearly and described comprehensively, delivering relevant information necessary for full understanding.	Importance of 'Safety' to social, cultural, economic and sustainable development is stated, described, and clarified so that understanding is not seriously impeded by omissions.	Importance of 'Safety' to social, cultural, economic and sustainable development is stated, but description leaves some terms undefined, ambiguities unexplored, boundaries undetermined.	Importance of 'Safety' to social, cultural, economic and sustainable development is stated without clarification or description.	
		For complete Similarity with other (Negative Marking will be imposed)
